

AMENDMENT TO THE SPECIFICATION:

Please replace the title with the following amended title:

SYSTEM, METHOD, AND ARTICLE OF MANUFACTURE FOR
CONDUCTING A TRANSACTION ~~ON ANY SITE ON THE WORLD WIDE~~
~~WEB ON BEHALF OF A USER FROM ANY DEVICE USING A~~
PURCHASE PATTERN

Please replace the paragraph at p. 6, lines 10-18 with the following amended paragraph:

A further aspect of the present invention enables users to conduct transactions on any site. It does so on the basis of technology that allows any one to get any kind of content from any site and aggregate it one place. Such technology is described in copending US Patent Application entitled SYSTEM, METHOD AND ARTICLE OF MANUFACTURE FOR GENERATING A CUSTOMIZABLE NETWORK USER INTERFACE and filed June 7, 2001 under serial number 09/876,671 and assigned to common assignee, and which is incorporated herein by reference for all purposes. By aggregating the way transactions are conducted on any arbitrary site, the implementor of the present invention becomes the default e-commerce enabler of the web.
